# ARIZONA DEPARTMENT OF HEALTH SERVICES BUREAU OF EMERGENCY MEDICAL SERVICES AND TRAUMA SYSTEM

# June 2013 Yavapai County Report ASTR 2011

Prepared by:

Maureen Brophy, MPH

Vatsal Chikani, MPH

Rogelio Martinez, MPH

**Data and Quality Assurance** 

#### **Purpose:**

The purpose of this report is to describe the incidence of trauma in Yavapai County using the Arizona State Trauma Registry (ASTR). This information can be used to assist in the development and strengthening of injury prevention programs at the county level.

#### Methods:

In 2011, the Arizona State Trauma Registry (ASTR) received data from 23 state-designated trauma centers. Four additional healthcare institutions participated in the registry but were not designated. The Arizona EMS and Trauma System has eight Level I trauma centers - six located in the central county of Maricopa with 60 percent of the state's population; the remaining two Level I trauma centers are respectively located in the northern-most county of Coconino and the southern county of Pima. For the 2011 reporting year, there were 15 designated Level IV trauma centers dispersed primarily in the rural areas of the state. There are a total of 29,877 records in the ASTR for 2011.

#### Limitations:

Data is limited to participating agencies in the state. Information on patients that are transported out of Arizona will be missed as well as those seen at hospitals that are not participating. Injuries included in this registry are those which fit the <u>ASTR inclusion criteria</u>. As such, injuries reported are more severe injuries, and therefore not a complete picture of injury in Yavapai County.

#### **Geo-Population:**

Arizona is 400 miles long and 310 miles wide for a total area of 114,006 square miles. The topography of the state is 364 square miles of water and a blend of deserts, mountains, and plateaus. Arizona shares contiguous borders with the states of California, Colorado, Nevada, New Mexico, and Utah. Internationally, the Mexican states of Sonora, Chihuahua, and Baja California Norte share a border with Arizona.

The total reported population in 2011 was 6,438,178; this was up from the 2010 reported number of 6,392,017 residents <sup>1</sup>. In 2011, 84.1 percent of the population lived in urban counties (Maricopa, Pima, Pinal, and Yuma). The remaining counties (Apache, Cochise, Coconino, Gila, Graham, Greenlee, La Paz, Mohave, Navajo, Santa Cruz, and Yavapai) were home to 15.9 percent of the population.

Additionally, Arizona has within its borders twenty-two (22) federally recognized American Indian tribes, comprising a 2011 collective population of 296,529, of which 162,119 (55 percent) reside on reservations and tribal lands.

Statewide, there were 29,877 traumatic injuries seen at state designated trauma centers— a rate of 456 per 100,000 Arizona residents.

Yavapai County makes up 3.3 percent of the total population of Arizona. Injuries occurring in the county make up 3.5 percent of the trauma cases from state designated trauma centers. The county-specific trauma rate, 487 per 100,000 county residents, is higher than the state average (Figure 3).

<sup>\*10</sup> or fewer observations

The age distribution of trauma in Yavapai County is comparable to the rest of the state (Figure 5). The highest trauma rate in the county is among the 85+ age group (889 traumatic injuries per 100,000 county residents).

FIGURE 5: Trauma rate per 100,000 residents by age

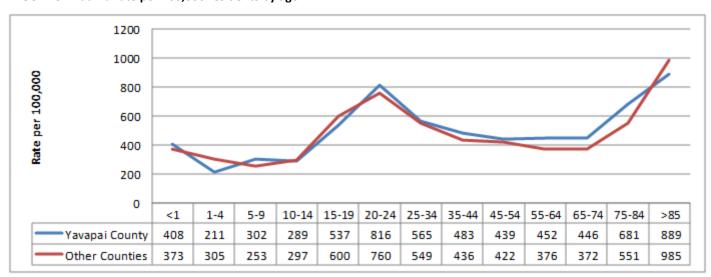

FIGURE 6: Trauma rate per 100,000 residents by gender

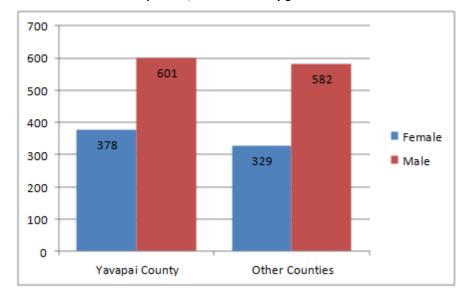

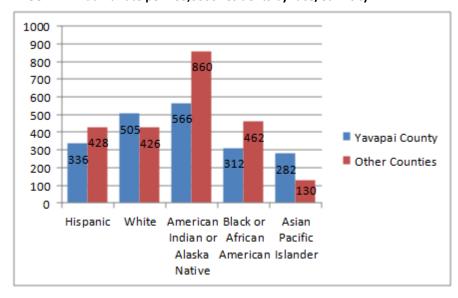

FIGURE 7: Trauma rate per 100,0000 residents by race/ethnicity

Both males and females in Yavapai County have higher trauma rates than their counterparts in other counties (Figure 6).

The trauma rate for people of White and Asian/Pacific Islander race/ethnicities is higher in Yavapai County than in other counties (Figure 7).

Figure 9 shows the top causes of traumatic injury in Yavapai County, as compared with other counties (rates per 100,000).

FIGURE 8: Frequency of top causes of trauma in Yavapai County

Cause	Count	Percent
Motor Vehicle Traffic	423	41.1%
Falls	341	33.1%
Transport, other	100	9.7%
Cut/Pierce	54	5.2%
Struck by/Against	27	2.6%
Other Trauma	84	8.2%
Total	1,029	100%

FIGURE 9: Top causes of trauma, rates per 100,000 residents

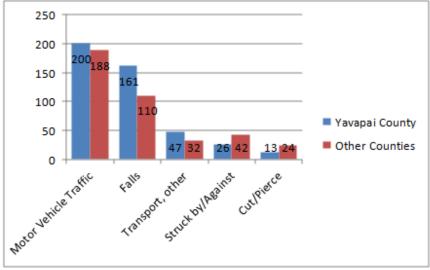

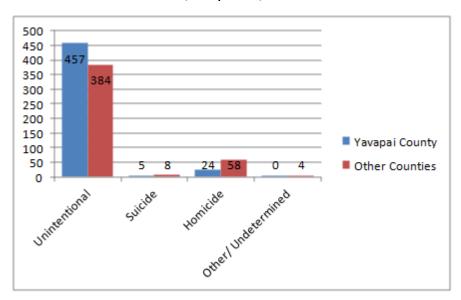

FIGURE 10: Intention of trauma, rate per 100,000 residents

The rate of unintentional trauma is higher in Yavapai County than in other Arizona counties (Figure 10).

FIGURE 11: Substance use in traumatic injuries in Yavapai County

Documented alcohol and drug use was present in 15.4% and 8.2% of traumatic injuries in Yavapai County, respectively (Figure 11).

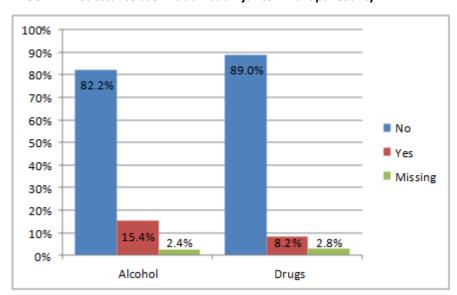

FIGURE 12: Frequency of substance use in traumatic injuries in Yavapai County

Substance Use		Frequency	Percent
	No	846	82.2%
Alcohol	Yes	158	15.4%
	Missing	25	2.4%

	Air	Ground	Other	Missing
Yavapai County	456	458	112	3
Other Counties	4,117	20,385	3,705	112

The term "golden hour" refers to the hour immediately following traumatic injury. Theoretically, the chance of survival is highest when medical treatment to prevent irreversible internal damage is obtained within this time period.

Due to the large amount of missing data on golden hour, results on the proportion of patients arriving at the hospital within one hour are not conclusive.

FIGURE 15: Golden hour by transport type

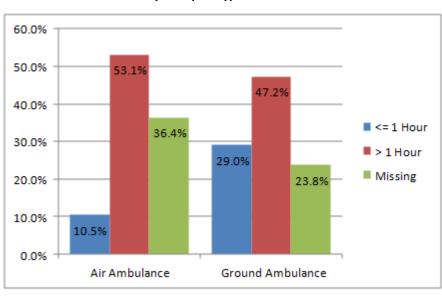

FIGURE 16: Count of golden hour by transport type to trauma center

Caldon Have	Air Aml	oulance	Ground Ambulance		Total	
Golden Hour	Count	Percent	Count	Percent	Count	Percent
<= 1 Hour	48	10.5%	133	29.0%	181	19.8%
> 1 Hour	242	53.1%	216	47.2%	458	50.1%

FIGURE 17: Primary payer in Yavapai County

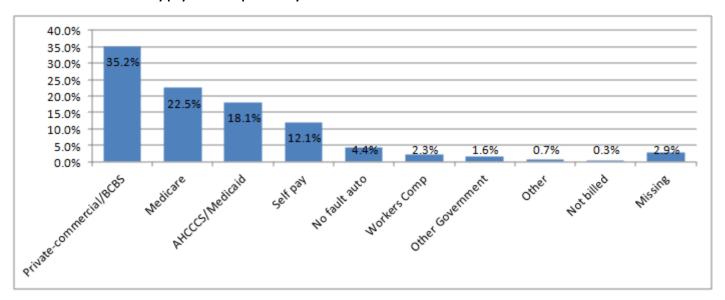

FIGURE 18: Count of primary payer in Yavapai County

Primary Payer	Frequency	Percent
Private-commercial/BCBS	362	35.2%
Medicare	232	22.5%
AHCCCS/Medicaid	186	18.1%
Self pay	124	12.1%
No fault auto	45	4.4%
Workers Comp	24	2.3%
Other Government	16	1.6%
Other	7	0.7%
Not billed	3	0.3%
Missing	30	2.9%

Private-commercial/BCBS is the primary payment source for trauma-related hospital visits in Yavapai County (Figures 17 & 18).

The median charge in Yavapai County in 2011 was \$24,890 (Figure 19).

FIGURE 19: Charges & reimbursement by primary payer in Yavapai County

Primary Payer	Total Charges	Median Charges	Total Reimbursement
Not documented	\$236,789	\$64,564	\$3,607
